ADDENDUM # 1

Legal Research

REQUEST FOR PROPOSAL (RFP) # 32625C

Item	Vendor Question (Q)	Official Court Response (A)
1	RFP Section 1.0 on page 2 requests AI research functionality. We can provide a legal research solution for 115 judges and research attorneys with an upgraded generative AI platform for some or all of the users. Would you like to receive pricing options for subsets of users with upgraded generative AI access? If so, please specify the desired user tiers. (For example, you may wish to see the upgraded pricing for up to 25, 50, 75 and 115 users.)	Yes, the Court would like to receive pricing options for upgraded generative AI access for subsets of users, along with pricing options for the current legal research platform. Here are the pricing options that the Court is requesting: 1) pricing for current legal research platform without generative AI for up to 115 users, and 2) pricing for subsets of users with upgraded generative AI access as follows: <ul style="list-style-type: none">• Up to 25 Generative AI Users• Up to 50 Generative AI Users• Up to 75 Generative AI Users• Up to 115 Generative AI Users
2	What is the Court's plan for implementing AI in the office?	To improve efficiency with legal research tasks including finding the applicable current law and producing draft orders and opinions.
3	AI or Generative AI. Could you please clarify your artificial intelligence (AI) requirements highlighted in Section 2.0 (page 2) of the proposal? Specifically, while AI capabilities are already integrated into many legal research platforms, we want to understand if your requirement focuses on generative AI capabilities. Including generative AI would be a significant advancement in your legal research solution and could impact pricing. Therefore, confirming the specific type of AI capabilities	Yes, the Court would like to receive pricing options for upgraded generative AI access for subsets of users, along with pricing options for the current legal research platform. Here are the pricing options that the Court is requesting: 1) pricing for current legal research platform without generative AI for up to 115 users, and 2) pricing for subsets of users with upgraded generative AI access as follows: <ul style="list-style-type: none">• Up to 25 Generative AI Users• Up to 50 Generative AI Users• Up to 75 Generative AI Users• Up to 115 Generative AI Users

	you are seeking will help us tailor our proposal to your needs.	
4	Temporary Password Clarification. The solicitation indicates a need for up to 115 attorney passwords and additional passwords for non-attorney users (115). Since the Court is also requesting temporary passwords, will the Court please indicate the number of users who will require temporary access to the proposed legal research services, as well as when the Court would like these passwords activated? We would recommend trial access to begin with our demonstration so that users can follow along.	<p>The Court is requesting 100 temporary user IDs, with the Generative AI access, to cover the judges, commissioners and legal research staff. These IDs should be issued within a day after the first presentation from each vendor.</p> <p>The Court requests that these user IDs be active for up to 30 days.</p> <p>Please advise as to how these test IDs will be disseminated.</p>

Please note the bid due date remains the same.

We appreciate your participation in the solicitation process and thank you for your interest in doing business with the Court.

Sincerely,

Collin Conroy
