

Security at the Superior Court of California County of Santa Clara

When you enter any of the courthouses, you will go through airport-type security screening. You will walk through a metal detector and your handbags, briefcases, backpacks and containers will be x-rayed. These devices are harmless and present no health hazard.

Knitting needles, nail clippers, scissors, knives or weapons of any type, including but not limited to guns, stun guns, mace or other caustic materials, are not allowed in any courthouse. Items deemed a hazard by officers will be retained at the security center and returned to you when you exit the courthouse. Alcoholic beverages are also prohibited.
