JUVENILE DIVISION

Based upon information provided to the Court by the Santa Clara County Office of the Public Defender, the Court finds that the attorney for the minor has a legal obligation to investigate services when there are competency issues and develop a disposition plan for all minors in the Juvenile Justice Court. The competency issues and/or dispositional plan may include contact with the San Andreas Regional Center. In order for the San Andreas Regional Center to assess a minor, members of the Center must review information from the minor's juvenile file.

THEREFORE, IT IS HEREBY ORDERED that the minor's attorney is permitted to release information from the minor's attorney's file to a representative of the San Andreas Regional Center for the purpose of obtaining or continuing services through the San Andreas Regional Center. No further dissemination of these juvenile court records may be made by any such attorney or the San Andreas Regional Center without further express permission from the Juvenile Court.

IT IS SO ORDERED:
