All Current PATH2Services cases are now CITA Cases

T. Pierce

This order allows for the current PATH2Services juvenile probation cases to be transferred into our CITA Court. PATH2 stands for Progress Achieved through Hope and Holistic Services which was a co-occurrence court, a specialty court which was developed through a SAMHSA grant in 2014. That grant has ended and the specialty co-occurrence court team members have determined that the PATH2 court should be blended into CITA Court which stands for the Court for the Individualized Treatment of Adolescents which is based on a substance abuse harm reduction model and a focus on an individualized mental health treatment plan. The team has developed a protocol, a handbook and all the stakeholders have signed off in support. This order is effective immediately. All youth will be treated in an individualized manner. All previously signed consents for PATH2 will be honored for CITA Court.
