Re: Demand to Immediately Restore Power to Family Justice Center Courthouse

Dear Ms. Poppe:

We are the Assistant Presiding Judge and Chief Executive Officer, respectively, of the Santa Clara County Superior Court. After an equipment failure at the Family Justice Center Courthouse (FJCC) on March 4, 2024, the FJCC has been operating on generator power since March 7, 2024. The Judicial Council of California (JCC), which assists the Court in managing the FJCC, has been in contact with PG&E representatives since March 4. Since approximately mid-April, if not earlier, the JCC has asked PG&E to reconnect power to the FJCC; it is unclear why, weeks later, power has not been restored. Generator power is unstable and noisy and the Court's litigants and neighbors deserve stable and non-disruptive operations. By this letter, the Court demands that PG&E take action immediately to restore power to FJCC.

Thank you.

Sincerely,

Julie A. Emede
Assistant Presiding Judge
Santa Clara County Superior Court

Rebecca J. Fleming
Chief Executive Officer
Santa Clara County Superior Court
